

Dear Sergey

What piece of bad news it is to hear that our respectable Academician Bagayev passed away. It is big lost to his family, Laser Institute, laser field community and all of us.

Academician Bagayev is a great scientist and is famous for his achievement in laser field in the world. Series MPLP (conference on modern problem of laser physics) has been help for many years and attracted a lot of attentions all over the world. He has been engaged in the cooperation between China and Russia. With his promotion , the China-Russia bilateral workshop on laser and photonics has been held for more than ten time in past decade.

Academician Bagayev worked so hard and did a lot of contribution to the laser field. Now he was tired. Wish he has a peace rest in the heaven .

Please bring my best regards to his family .

Hoe our cooperation and friendship created by Acadmician Bagayev last forever.

Yours

Feng
